DNA ASTROLOGY: THE GENETIC CODE OF YOUR SOUL

IDENTITY & ANCESTRY

DNA Astrology is a revolutionary approach that goes beyond traditional prediction. It reveals the unique karmic patterns imprinted in your genetic memory. Just as biological DNA carries physical traits from your ancestors, your Astrological DNA carries their karmic imprints. These patterns often repeat across generations until resolved.

INSIGHT OVER RITUALS

Your life structure is built upon 8 fundamental pillars. Each represents a specific bond—Self, Spouse, Children, Siblings, Parents, etc.—defined by planetary influences. This report decodes the strength of these pillars. The 8 Karmas analysis covers: Guru Karma (Jupiter), Chandiran Karma (Moon), Suriyan Karma (Sun), Sevvai Karma (Mars), Sukiran Karma (Venus), Sani Karma (Saturn), Rahu Karma, and Budhan Karma (Mercury).

TRADITIONAL VS DNA ASTROLOGY

Traditional Astrology	DNA Astrology
General Predictions based on surface level charts	Precise Karmic Imprinting details
Generic Remedies with uncertain results	Root cause analysis and specific solutions

OUR PHILOSOPHY: INSIGHT OVER RITUALS

DNA Astrology does not believe in pariharams. The only remedy recommended is behavioural changes, change in our attitude and outlook towards others, understanding our own mistakes and making course corrections. Basically, the DNA Karma reveals the plight that we have led ourselves to over the past lives. Hence, it is impertive to take course corrections where essential. The 8 Karmas become the mirror that reflects this in unambiguous ways - no magic bullet, no recommended rituals, no rings / stones that can help, understanding your own self and making course corrections with absolute belief in the absolute formless consciousness called God or the family deity (kula deivam) is the best way. DNA Astrology empowers us with such insight that makes you realize where you are going wrong. Course corrections reduces the impact of the karma and slowly makes you overcome it to some extent.
